712 Main Street  
Buffalo, New York  
14202

To The Committee,

This letter is in support of the establishment of a Multi-Point Video Conferencing Center at the University of Buffalo. FCS's commitment to the project includes our intent to actively participate, as well as, technical and production resources to enhance the teleconferencing capabilities of the Center. These services would include, but not be limited to: graphics, animation, digital material preparation, and video editing.

We feel that this is a significant and essential project that needs immediate consideration and implementation. The future health of the WNY area in terms of its economy, the quantity and quality of its population, and the potential for its growth and development, is dependant on projects like this being funded.

We look forward to working with all of the partners in this project to make the Center a success, and a model for future projects here in WNY.

Sincerely,

Terry J. Fisher  
President, Full Circle Studios
